Dear Community Member:

Message from the GVC President

As I mentioned in the December 18, 2020 Newsletter, the GVC needs to open lines of communication and accessibility. The Council needs to foster a more dynamic interaction with our membership and community partners. While electronic communication is today's standard, person to person contact sets the stage for more meaningful dialogue and relationships.

Our HOA members are unique and diverse - as are your needs. The Council goal is to recognize and meet those needs. Sometimes this requires going back to basics. To fully understand and engage our membership we will initiate Step 1 of this process. We will be contacting each of our members to reestablish your direct link to the GVC. We look forward to getting your input!

Stay safe - be well,

Debbie Kenyon, GVC President
