

*Funding a Place to Call Home.*

## TALKING POINTS

### ONE:

On any given day, **10,000+** individuals experience homelessness in Arizona. In 2018, **24,770** Arizona public school students experienced homelessness.

### TWO:

Homelessness is at an all-time high and growing because of the impact of Covid, rising housing costs and the extreme shortage of affordable and available housing.

*Arizona has the 3rd most severe affordable housing shortage in the nation. Addressing and solving this takes the public, private and philanthropic sectors across Arizona working together to raise the millions required to build the housing inventory our communities need.*

### THREE:

The Arizona Housing Fund is our state's solution to raise and provide funding to the Arizona nonprofits who build affordable, supportive and low income housing. Donations to AZHF will go directly to established and successful Arizona nonprofits to build more units and provide the supportive services needed on site for their residents.

Arizona's Fundraising Goal  
**\$10 MILLION A YEAR**

### FOUR:

To donate directly or become an Arizona Housing Fund fundraising partner, visit [arizonahousingfund.org](http://arizonahousingfund.org).

Click on **JOIN US** and download the easy-to-use toolkit that works for your business. Start donating and making a difference today.

Together we can build the affordable housing our communities need and reduce homelessness.
