Tips for talking into the mic:

- Tap the mic to verify the mic is on prior to speaking. Don't turn off the mic when you are done speaking.*
- Don't crowd the mic. If you get too close, the mic will amplify every breath, every snap of your jaw, every click and hiss of the words you pronounce and can create annoying feedback, popping, and screeching.*
- Don't speak too far away from the mic – you want to make sure the mic picks up your voice.*
